- C++
- Python
- Git & GitHub
- OOP
- Numpy / Pandas
- Financial Management

### Soft Skills

- Commitment
- Time Management
- Loyalty

### Language Skills

- English : Good

## PROJECTS

---

**May 2025**

Faculty of Artificial  
Intelligence

### Predict Heart Disease

[Verified Achievement](#)

Worked on a team machine learning project to predict heart disease using Python (Pandas, Seaborn, Scikit-learn), achieving ~72% accuracy. Covered full pipeline: EDA, preprocessing, modeling, and visualization – completed on May 18, 2025.

**July 2024**

Personal Project

### Vive Wave

[Mention on Facebook](#) [Verified Achievement](#)

Launched my personal project vivi-wave.online, an e-library website built with WordPress and deployed on a live server. The site was launched on July 28, 2024, then redesigned and enhanced on June 20, 2025, with an improved UI to support full e-library functionality, added book content, and optimized SEO performance.

**July 2024**

Personal Project

### AI Daily News

[Mention on Facebook](#) [Verified Achievement](#)

Created and deployed ai-daily-news.online, a live AI-focused news website built with WordPress, launched on May 31, 2024. The site was updated in mid-May 2025 with design improvements, layout adjustments across multiple pages, and newly added AI news content.

## EXTRACURRICULAR ACTIVITIES

---

**May 2025**

Menofia University

### Hult Prize – Menofia University

[Mention on Facebook](#) [View Certificate](#)

Participated in team-based startup development activities, including SWOT analysis and Business Model Canvas workshops. Explored and discussed various project ideas related to technology, sustainability, recycling, and environmental impact.

[Verified Achievement](#)

**May 2025**

Menofia University

### Led a Full Marketing Campaign: "Built with AI" (for GDG Event)

Planned and executed a complete marketing campaign for the "Built with AI" event, part of the GDG series. It was the third time the event was held at the university, and this campaign achieved the highest reach and engagement compared to previous editions. Successfully increased visibility and attendance through strategic content, branding, and audience targeting.

**Dec 2023**

Faculty of Artificial  
Intelligence

### Google Developer Student Clubs

[Mention on Facebook](#)

Attended a Google Developer Student Clubs (GDSC) event on career paths and programming fundamentals – December 9, 2023. Explored various tech career tracks and gained foundational insights into each path. The session also introduced core programming concepts to help beginners understand the fundamentals.

## ACHIEVEMENT

---

**May 2025**

Menofia University

### The 3rd Student Forum

[Mention on Facebook](#) [View Certificate](#)

Won "Best Project Idea" with my team in the Entrepreneurship track at the 3rd Student Forum. Our project addressed the issue of excessive governmental paperwork, aiming to simplify and streamline processes for young entrepreneurs. Under the slogan "We clear the paper haze, so you can launch your blaze," we proposed a solution to help youth save time and start their businesses faster.

**May 2025**

Menofia University

### The Environment Week Competition

[Mention on Facebook](#) [View Certificate](#)

Won 2nd place as part of a multidisciplinary team in the Environmental Week Competition. The project was a collaboration between the Faculties of Mass Communication, Home Economics, and Artificial Intelligence. Our team handled the technical development side, and the final product was successfully deployed on a university-hosted server.

**Sep 2024**

AI Pioneers Team  
Project – Remote

### Co-founder & Core Leadership Member at AI Pioneers

[Official Facebook page](#)

This initiative was born out of a deep passion for business and technology. I was one of the founding members who laid the groundwork for AI Pioneers — a youth-led team offering professional web development and graphic design services.

I played an active leadership role in shaping the team's identity, defining its vision, and executing real-world projects. The team was built entirely through self-driven effort, and I was honored with a recognition shield for my dedication, creativity, and persistence.

This project is not just a side activity — it's a reflection of my core passion and long-term commitment to entrepreneurship. It fuels my daily motivation to keep learning about business, marketing, and technology, with the goal of building something impactful and inspiring.
